ONE LAB

One lab, certified nationwide, from a single location. Ensuring consistency, quality, and efficiency.

Our concentration of resources and 24/7 production capacity is unique to our industry.

ESC can support all spill and emergency response needs, large rush projects, and after hour requests. Just contact our on-call manager.

Our ESC Team is comprised of over 250 scientists and technicians to support you.

NATIONWIDE

A nationwide leader in analytical chemistry and laboratory automation. Setting the standard for online reporting innovation and environmental responsibility.

Over 60 branch offices and supply center locations nationwide to serve you. We are adding locations all the time. Check our website for updates.

Brownfields/ Voluntary Cleanup Program

The Brownfields Voluntary Cleanup Program (BVCP) provides state support to voluntary cleanup of previously contaminated sites. Participants (landowners) enter the program voluntarily. BVCP provides the following assistance to participants on the property only to limit the size of the program. BVCP is not a grant program. Through participation in the program, BVCP will assist in the cleanup of hazardous substances and the remediation of the site.

Freemans Electrical Lamps Plant Local Museum

The site was previously a hazardous waste site. The site was cleaned up as part of a large redevelopment which includes an apartment building and other uses.

The program is open to any site that has been identified as a brownfields site by the Missouri Department of Natural Resources. The program is open to any site that has been identified as a brownfields site by the Missouri Department of Natural Resources. The program is open to any site that has been identified as a brownfields site by the Missouri Department of Natural Resources.

If you have been listed as a brownfields site, the BVCP is available to help. The BVCP is a state-funded program designed to help property owners clean up hazardous waste sites. The program is open to any site that has been identified as a brownfields site by the Missouri Department of Natural Resources.

The information you need to decide how to proceed is available from department staff.
